

## Camp Hasthi - Udawalawe

Tucked inside a private sugar cane plantation and built under the shade of a mango grove lies the best kept secret of camping experiences near the Udawalawe Wildlife Sanctuary.

Camp Hasthi was built as a deliberately simple, permanent and authentic camping experience to help you explore the best of Sri Lanka's wildlife, village life, cuisine and culture all at once.

You sleep in large comfortable tents to be woken up by peacock calls, a choice of sweet or spicy tropical breakfasts, hot tea or coffee and a dose of warm morning sun.

Before you clamber aboard a safari jeep ask us about the rest of our well kept secrets. Here's what to expect when you book a stay with us. Expect a lot of local wildlife and not just in the garden. Expect warm sunny mornings with peacocks as your alarm clock. Expect great food with a chef who will accommodate your craziest requests provided he has the ingredients. Expect our friendly manager to always oblige your needs even if it means a cycle ride to town.

Expect a few friendly spiders, frogs and lizards who love to come visit us daily. Expect the unexpected especially when we take you on those long walks around the village because nothing about Camp Hasthi is manufactured so expect spontaneous organic fun.
